DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of group II, i.e., claims 14-26 in Paper No. 4 is acknowledged. The requirement is deemed proper and is therefore made FINAL.
2. This application contains claims 1-13 drawn to an invention nonelected without traverse in Paper No. 4. A complete reply to the final rejection must include cancellation of nonelected claims 1-13 (37 CFR 1.144) See MPEP § 821.01.
3. Claims 14-26 are considered before the examiner.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 14-26 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: when and where the second slice of liver is obtained and what kind of the drug the second slice of liver tissue is not exposed to in the medium. According to the disclosure of the specification, the following steps are necessarily involved in practicing the claimed invention: obtaining a liver biopsy tissue from a subject having hepatitis and dividing the liver biopsy tissue into a two equal size of slices (line 11 of page 7), wherein the first slice of the liver tissue is incubated with a medium containing a testing drug and the second portion of the liver tissue is incubated with the same medium free of the said drug. Because the first liver slice and second liver slice have to be equal in size and be obtained from the same patient, and tested at same time. Moreover, the claim should clearly cite that the medium for culturing the second slice of liver tissue is free of said test drug.
